

QuickBooks® 2006/07 Premier

Features & Benefits

Built specifically for your industry

QuickBooks is available in industry-specific editions that offer specialised tools and features unique to your industry. Whether you're an Accountant, Contractor, Manufacturer, Non-Profit, Professional, Retailer or Property Manager there is a specific QuickBooks edition for you.

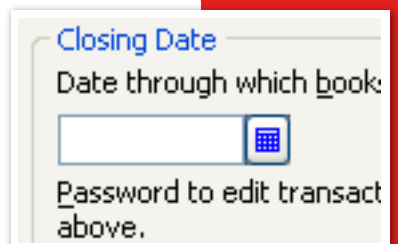

Share data among simultaneous users

Allows up to five users to work on a QuickBooks company file at the same time.

Have greater control over data

Set user permissions to restrict access to your confidential and sensitive financial information. This feature is especially useful if your business has multiple users of QuickBooks, and you want to restrict access by user to parts of your financial data. QuickBooks allows you to password-protect your closing date. You can easily see any changes made before the password-protected closing date in a convenient report, showing you who has made what changes.

Comprehensive employee management

Gives you easy-to-use tools and the latest tax tables you need to help manage and maintain control of your payroll. The payroll feature saves you time and money by avoiding duplicate data entry and helps to avoid hassles associated with incorrect payroll withholding.

Increased efficiency with advanced tools

Save your business undue costs by utilising QuickBooks email functionality. Invoices, statements, estimates, purchase orders, sales orders, sales receipts, adjustment notes, and reports can all arrive on your suppliers or customers desktop within minutes. There is no need to separately track your contact lists - you can easily synchronise your contact information with Microsoft Outlook.

Better help to assist you manage your business

Compare the performance of your products or services and measure the profitability of different areas in your business. The Company Centre includes reports that help you compare alternatives and analyse your financial position. You can have QuickBooks remind you when it's time to pay bills, print cheques, deposit money in the bank, enter memorised transactions, act on overdue invoices, or act on your personal To Do notes. QuickBooks can also remind you to print forms such as invoices and purchase orders.

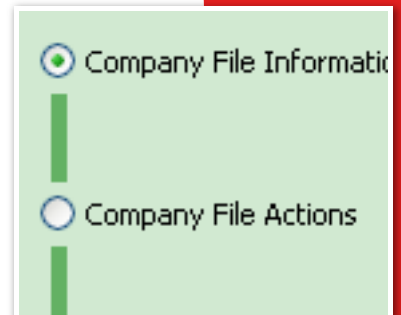

QuickBooks® 2006/07 Premier

New Features

Audit your company file

Now you can have all the important information about your company file in one location, and prepare the file for a BAS or for your accountant.

The wizard will take you through the four steps. You can backup and verify your data, get the latest tax tables and set a closing date - all from within the one area of QuickBooks. Then simply audit your company file and have peace of mind that it is ready to send to your accountant.

Quicken SuperLink

Take the headache out of Super Choice with Quicken's new integrated solution, Quicken SuperLink*. No more writing cheques, printing reports and sending them to each super fund – simply create your pays, export to Quicken SuperLink then go online to upload the exported file and process the transaction.

Email a remittance advice

From your feedback, we've included the ability to email a remittance advice, removing the need to print out the advice and post it to your supplier – saving you time and money.

Letter Wizard enhancements

If you have large customer lists, make sure you take advantage of the Letter Wizard. QuickBooks now provides greater flexibility when writing letters to customers. Filter your customer list by customer type or job type, to easily target specific groups.

Payroll Enhancements

Calculate your payroll liabilities more accurately – now you can track State Payroll Tax, and produce Centrelink Declarations straight out of QuickBooks.

*You must first subscribe to Quicken SuperLink. Additional costs may apply.
